

**SO-BOS-SO (Kilfly)** is a liquid mixture designed to protect cows and horses from torture of flies. The preparation is positively harmless. It is used with splendid results as a disinfectant and germicide. The Electric Sprayer discharges the So-bos-so (Kilfly) in a fine, broad spray. From 20 to 50 cows can be sprayed in a few moments. The Electric Sprayer is detachable, and thus may be thoroughly cleaned. If your animals are troubled with lice use So-bos-so (Kilfly). It knocks them out. Spray your poultry house with So-bos-so (Kilfly). It kills lice, or any vermin that may infect the fowls.

### FOR HORSES.

So-bos-so (Kilfly) is invaluable as a disinfectant for spraying around the stable; at the same time prevents the irksome torture of flies. Used with splendid effect on horses while at work, especially draft horses, traveling at a slow pace and often times obliged to stand for long intervals, harnessed to the truck, exposed to the torture of the beastly flies, while the teamster is loading, unloading, or otherwise engaged. Blacksmiths will greatly appreciate the preparation. A moment's work with the Electric Sprayer and a little So-bos-so (Kilfly) will rid the shop of flies, and the horses stand perfectly quiet. Your use of So-bos-so (Kilfly) will result in more and better milk, more money, more comfort for cows, for horses, and for you. Kilfly has proved a perfect success in this Territory, and until the arrival of large invoices recently, we have been unable to fill all orders. We have now a supply on hand and more on the way. Sufferers from the HORN FLY should give Kilfly a trial. We are the sole agents for the Territory of Hawaii.

### BY AUTHORITY.

AMENDMENT OF RULE 1 OF THE SUPREME COURT.

Rule 1 of the Supreme Court is hereby amended by adding to the third paragraph thereof the words "and notify opposing counsel thereof," by striking out the fifth paragraph thereof and by striking out the words "the term" and inserting in lieu thereof the words "each session" in the last paragraph thereof, so that the said Rule shall read as follows:

#### 1.—CALENDAR.

The plaintiff in error or appellant shall notify the clerk when all requirements for placing a case upon the calendar have been complied with. If the plaintiff in error or appellant shall fail to observe this rule within ten days after such requirements have been complied with, the defendant in error or appellee may so notify the clerk.

Upon receiving such notice the clerk shall enter the case upon the calendar and notify opposing counsel thereof. If such notice is given before all such requirements have been complied with, the case will be stricken from the calendar.

Motions will be heard on the opening day of each session after the calling of the calendar.

By the Court: HENRY SMITH, Clerk.  
Honolulu, November 11, 1901.

## HOME RULE REPUBLICAN

The Name of the Independent Party.

Home Rule Republicans will be the name under which the Independents will carry on their campaign at the next election. At the meeting of the Independents held last night in Foster Hall there was a harmonious discussion on the question of changing the present name of "Home Rule Republicans" back to the original name of "Home Rulers."

There was a long talk participated in by a score or more members, and the general opinion was that owing to the fact that the new name had been taken by the executive committee, meeting with delegates from all districts, the committee itself did not have any power to change the name back to the original title.

Delegate Wilcox at the close of the discussion, in a long address, bade farewell to the members of the committee, as he will leave soon for Washington. It was later announced that he will speak next Monday evening at the Kaunakapili church premises. In his address he impressed upon the members of the party that they must stand firmly together as in the last election and resist encroachments from the outside. He enjoined upon them the maintenance of the old lines, and that although he was going to Washington as a "Republican," he wished them to remain "Home Rulers" at home. Other speeches along the same lines were made, and all were greeted with applause.

The new members of the committee were present and several of them took part in the discussion, and at no stage of it did the allegedly proposed program of substituting young men for old leaders, come up for consideration. The consensus of opinion of those present was that the party was stronger today than ever before. The meeting was a large one, about 125 members of the committee and of the party being present.

### MANAGER GOODALE'S TRIP.

Will Spend a Few Months in Japan Resting.

Among the passengers by the Gaelic for the Orient last evening was Wm. W. Goodale, manager of the well known sugar plantation, who left for a short rest of three or four weeks before the grinding season of 1902 opens in January. This fine estate may now be said to be in first class condition, and gives promise of a crop of over 20,000 tons, to be taken off during the next eight months. The natural rainfall of the Waialua district is now supplemented by some forty artesian wells, which irrigate cane fields extending over an area of ten miles in length, consisting mostly of level land and very rich soil. Those who can remember this plantation in its earlier years, when its area was limited to the small fields lying near the Waialua river, and its sugar crops to four or five hundred tons annually, will note the change in the output as compared with the present yield. Nothing could ever have accomplished this but the bountiful supply of water now flowing from its thirty or forty wells.

### ENGLAND UNDER FOG.

Many Fatalities Attend the Closing Down of Mists.

LONDON, Nov. 7.—The heavy fog which shut down upon London and half the country Tuesday and which was particularly dispersed yesterday, returned during the night and the southern and eastern coasts were enveloped in a denser mantle than before. The Dutch mail boat Koenigslagen Regentes collided with the British (third-class) cruiser Prosperine off Spurne at midnight. The passengers and mails were transferred to the Prosperine and the mail boat was beached.

The mortality in London has seriously risen since the city has been enveloped in fog. There are numerous bodies at the mortuaries awaiting identification. Sixteen laborers are missing from the docks. It is supposed they walked into the water. In addition a number of bodies already have been recovered from the river.

### Faster Railroad Time.

CHICAGO, Nov. 7.—A time war is in sight among the railroads operating between Chicago and St. Paul. Vice President Bird of the Milwaukee and St. Paul road has given written notice to the managers of the other Chicago-St. Paul lines that the St. Paul company would consider itself no longer a party to the agreement for the time of passenger trains between the two cities.

This is the first break that has occurred in the time agreement and railroad men consider it the opening gun of a fight to be expected between the combinations and the independents.

It is expected that in the event war is inaugurated as threatened time between Chicago and St. Paul will be reduced from thirteen hours twenty minutes to ten hours.

### American Soon to Leave.

The big steamer American, which is at present lying at the A. H. Co's warehouse at the railroad wharf, has been getting well along with the work of discharging her cargo, and it is expected that the whole lot will be out in time to allow the vessel to sail on Saturday. Before she leaves the American will take on 100 tons of coal for her own consumption. She will not take any cargo on board at this port, and the only freight she will have in her hold will be 60 tons of barley and 30 tons of asphalt, which she took on board in San Francisco, and which she will keep on board during her round trip to Nansaimo, Ladysmith and Seattle, as it is necessary for the big steamer to have some weight in her. Captain Morrison, the master of the American, has been hustling around quite a bit and had some interesting experiences since he was last in this port. He was then the master of the Californian, which was in the transport service carrying stores to Manila. He has also been in the transport service for China, and took quite a number of troops to that country during the troubles there. He witnessed the attack of the insurgents on Manila, to which port he had come as the master of a sailing ship, which brought a load of coal for the war ships stationed in Manila. When the vessel arrived at Manila the coal was on fire, and had to be flooded in order to extinguish the fire. The coal was so much soiled by this that the Navy Department refused to accept it, and the coal had to be sold to private parties. It took Captain Morrison about six months to conclude this business, and it was during this time that he witnessed the attack of the insurgents. The night of the outbreak he was on board his ship at Cavite, but the next morning he hastened to Manila and was present during the hostilities. While in Manila he met Admiral Dewey, to whom he had a letter of introduction.

BOERS CAPTURE GUNS.  
Hard Fighting Which Results in Death of Leaders.  
The latest news of the Boer war is in dispatches from Pretoria and London of date of Nov. 7, as follows:  
General Botha, in conjunction with a commando of 1,000 men, attacked Colonel Benson's rear guard October 28, on the march and captured two guns. Colonel Benson fell mortally wounded early in the fight. Major Woods-Sampson then collected a convoy and made a defense near the Boer entrenchments. Neither side could touch the captured guns. The Boers repeatedly charged right up to the British lines, but were driven back with heavy losses. Colonel Barter brought relief on Nov. 1. Botha shared personally in the fighting. Kitchener cables the Boer loss was 41 killed, including General Opperman, and 100 wounded. Boers got nothing beyond the guns. He states the Boer attack was easily repulsed until the arrival of Botha.

### Will Get Commissary Supplies.

MANILA, Nov. 6.—The Philippine Commission has held that all employees of the Insular and Provisional government outside of Manila will receive the commissary privileges. This order includes the Thomas school teachers who made such a kick at Washington when they were shut off from the privilege.

## SCHLEY'S FATE WITH THE COURT

WASHINGTON, Nov. 7.—Judge Advocate Samuel Lemly today made the closing argument in the Schley court of inquiry. There was no forenoon session, and the judge advocate did not have an opportunity to begin his address before 2 o'clock. He read from a manuscript, but spoke in clear and distinct tones. The first half of the address was devoted to consideration of points made by Mr. Rayner and Captain Parker in Admiral Schley's behalf, and the latter half was again reviewed from the government point of view of the evidence.

Referring to the testimony of Admiral Schley and Captain Chadwick concerning the former's conversation with Admiral Sampson at Key West, Captain Lemly said: "I ask the court to apply to the applicant as a witness the well known rule referred to with such fervor by senior counsel that where two witnesses testify with regard to the same matter and one of them remembers, and the other merely remembers the circumstances of the matter, or let us say the conversation, the evidence of him who remembers must be accepted. If this be done, then there is little left of the evidence given before this court by the applicant, particularly upon his cross-examination."

Strong addresses had previously been made by Mr. Hanna and Mr. Rayner. The Schley court has declined to grant the request made yesterday by Attorney General, acting for Admiral Sampson, that the remarks of Captain Parker concerning the fact that the Spanish warship Colon lay in the harbor at Santiago for some hours after the arrival of Admiral Sampson, be stricken from the record. Admiral Dewey, writing for the court, says that this action has been taken after careful consideration. The court will not make a report for some time, as Admiral Dewey says the task of digesting the testimony is a prodigious one.

Sir Julian Pauncefote, the British Ambassador, has notified Secretary Hay formally that the British government accepts the American proposition relative to the Clayton-Bulwer treaty as the basis for a new treaty. Within a day or two the State Department will begin the preparation of the convention itself.

### NOTICE.

Intending Passengers by the Steamer Sierra, Leaving Honolulu for San Francisco on November 19th, are hereby notified that the above mentioned steamer will be given quickest possible dispatch and will not remain at this port more than six hours, day or night.

Tickets for the above sailing must be purchased at the office of the undersigned not later than Monday, November 18. The Company will not guarantee to receive baggage after the arrival of the steamer, nor to arrange transportation after the above date.
